

ENCLOSURE TO THE BUREAU:

L-Card used for indexing of Communists in Los Angeles office

RE: COMMUNIST INDEX

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: November 4, 1949

FROM : SAC, Los Angeles

SUBJECT: SECURITY
COMMUNIST INDEX

Reference is made to the SAC letter number 97, series 1949, dated October 19, 1949, and particularly to the portion pertaining to the instructions concerning the Communist Index.

Transmitted herewith is a form of the Communist Index card being utilized by this office. It will be noted that this card provides for recording (where available) the various items of information set out on pages 8 and 9 of SAC letter number 97, and also provides for recording certain other items. These additional items are the date and place of birth of the subject, the number of years he has been in the Party, whether he is the subject of a Security Index card and whether a photograph is available. The date on which the Communist Index card is made up is also entered on the card.

It is believed that these additional items of information further the purposes for which the Index was set up. They provide additional identification data of value, particularly in instances in which the subject bears a fairly common name. The inclusion of such information also furnishes to Agents, in making daily use of the Index, a quick summary from which they can estimate the potential danger to the national security represented by the subject. It is, therefore, requested that the Bureau authorize the placing of such additional information on the Communist Index cards.

⑥ It is noted that the attached form provides a space for entering the union affiliation of the subject. When the Index was first set up it was felt that this information would be helpful but it has subsequently been determined otherwise and no entry is being made on the cards now being prepared for the Index.

⑦ It is further noted that the card provides for indicating whether the subject's affiliation is with the Communist Party, the Socialist Workers Party or the Workers Party. It is believed that these embrace the ideological groups meant by the paragraph numbered two on page 8 of SAC letter number 97.

⑧ Accordingly, unless advised to the contrary, the Index will not be expanded to include persons affiliated with such groups as Labor Youth League, Veterans of the Abraham Lincoln Brigade, International Workers Order and the like, although the association between these groups and the Communist Party is a close one.

December 20, 1949

It is noted that you furnished with referenced letter a copy of the form used by your office for the preparation of Communist Index cards. This form calls for some additional information above and beyond that which the Bureau requires. These items will be discussed below separately.

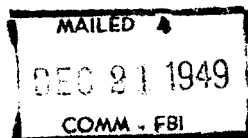

The Bureau has no objection to your including this data on the Communist Index card if it is available at the time the card is prepared. However, the Bureau does not desire that you make an effort to include this data at a subsequent date if the data is not available at the time the card is prepared. No project of any kind should be undertaken to keep this data in a current status.

The Bureau has no objection to the inclusion of this data inasmuch as this definitely would come within the scope of Part (h), paragraph (3), under Communist Index, SAC Letter No. 97, Series 1949. If this figure is used, of course, it will be pertinent to include the date on which the Communist Index card is made.

You must realize, of course, that the maintenance of a Security Index card on a particular individual is subject to change and, to that extent, if such data is posted on all Communist Index cards, the Communist Index can become outdated. The Bureau does not desire that any Agent or clerical time be expended in an effort to keep the information on Communist Index cards in a current status. Since the information appearing on the Index is not to be kept in a current status, the information appearing therein would, of course, not be authoritative and should not be relied upon to determine whether or not any particular individual is the subject of a Security Index card.

Obviously, if you desire to obtain such information you should go directly to the Security Index. The Communist Index should serve as a quick ready reference to the file and the file itself should be the authoritative source for any information concerning the individual. Accordingly, the Bureau does not desire that you put on the Communist Index card information as to the subject being the subject of a Security Index card.

(4) Whether or not a photograph is available.

The Bureau does not desire that you post this information to the Communist Index card for the same reason that the cards are not to be kept in an up-to-date or current status and, therefore, the information cannot be relied upon as an authoritative source.

(5) The Date on which the Communist Index card is prepared.

The Bureau has no objection to your inclusion of this data if it serves a day to day purpose.

(6) Union affiliation.

This data should not be included and it is noted that you have discontinued the inclusion of such information.

(7) Indication as to specific Party affiliation, i.e., Communist Party, Socialist Workers Party, Workers Party, etc.

The Bureau has no objection to the inclusion of this data if it is available at the time the card is prepared. These organizations are, of course, the organizations the Bureau had in mind when discussing the "Communist Party or similar ideological groups." The designation of the particular organization with which the individual is affiliated would, of course, be an elementary portion of the data to be included under Part (c), paragraph (3) under Communist Index, SAC Letter No. 97, Series 1949.

(8) Individuals affiliated with Communist front groups or infiltrated organizations should be included in the Index only if they satisfy the requirements of Part III of "Individuals to be included" under the Communist Index of SAC Letter No. 97, Series 1949.

Obviously the Bureau is in no position to make a general statement as to whether all these individuals should be included or excluded and the matter is one requiring a determination to be made

by the field office in each and every case on its own merits. You will note that the Bureau desires some showing of past or present activity or expressed sympathy on the part of such an individual indicating affiliation or agreement with the ideology of the Communist Party or similar groups.

(9) In conclusion, it is noted that you generally have followed the broad outline of Bureau requirements for the arrangement of your Communist Index. You have, however, developed certain specific items to somewhat of a greater detail than the basic requirements. The Bureau appreciates that your office has one of the largest concentrations of Communists and as such has the second largest number of Security Index cards as well as Communist Index cards which factor can mean that special attention is necessary in your administrative handling of the Communist Index. However, the Bureau does desire that you at all times attempt to maintain your Communist Index in a manner as simple as possible in conformity with present instructions.

COMMUNIST INDEX

Re SAC Letter 56-56 (L) dated October 30, 1956, containing instructions with regard to the reconstruction of the Communist Index.

In the past, field office files have been stamped "CI" on the front cover to designate those subjects of main case files on whom Communist Index cards existed. In order that file covers can definitely reflect those cases in which a Communist Index card is prepared under existing instructions set out in referenced SAC Letter, you should arrange to have the main case files stamped with the letters "RCI."

Stamps for this purpose should be purchased locally.

SUBJECT: *Security* COMMUNIST INDEX

Re SAC Letter 56-56 and mylet dated 1/30/57.

The Los Angeles Office has completed the preparation of Revised Communist Index (RCI) cards on those individuals who qualify for inclusion in this index following a review of those cases opened and subsequently closed without the subject's name being included in the Security Index since 4/15/55. These index cards are now filed alphabetically in the RCI and the file covers of the cases involved have been appropriately stamped. The old CI cards are being destroyed.

It is noted that the Manual of Instructions, Section 87D 7a(4), is specific as to the minimum requirements concerning the content of each RCI card. Particular reference is made to the requirement that each RCI card must contain information concerning membership and position or association in the subversive group or groups, together with the source and date of the information. This data is set forth on those RCI cards which were prepared as a result of the file review suggested in SAC Letter 56-56. However, this information is not set forth on those RCI cards which were formerly cancelled Security Index cards. As of 2/20/57 the Los Angeles Office had 1,872 RCI cards falling in this category.

In accordance with the above instructions, the Los Angeles Office will review those cases involving cancelled SI cards in order to obtain the required data and transcribe it on these cards. The Bureau will be kept advised of the progress made by this office.
